

The English Network (TEN) is a group of established, experienced, independent English language schools that have a reputation in the market for quality and personal service.

Members of TEN are professionals who work together to share their experience. This enables our schools to maintain their position as industry leaders. It also ensures that our students and agents can continue to have total confidence in every aspect of our service.

OUR STORY

In 2010 a small group of well-respected and internationally renowned English language school leaders formed The English Network (TEN). This network of 10 like-minded and dedicated professionals has trust at its core. For over 400 years we have, between us, delivered courses and a service that clients can depend on. High standards, professionalism and honesty are key values for each TEN member.

The members of TEN are now working together to share and develop their expertise for the benefit of each member and their clients. Members share information and advice on best practice. There is a common commitment to recommend, assist and advise agents and students on all aspects of English language study.

TEN offers agents the chance to work with a selection of trusted, reliable, independent English language schools. TEN offers the student great schools, popular locations and above all a guaranteed valuable and memorable student experience.

MEMBERS OF TEN...

- ✔ are in large and small cities, historic locations and on the coast
- ✔ attract students of different ages (from 9 to 90), backgrounds and nationalities
- ✔ offer English language courses for different student needs
